The Baseus Wireless Adapter provides faster data transmission and a stable connection over a distance of up to 20 m thanks to its 5.3 chip. It supports Plug and Play and is widely compatible with devices equipped with a USB-A port. It can connect as many as 5 devices at the same time and offers high-definition Hi-Fi sound.

Reliable connection

The adapter features a 5.3 wireless chip that provides a reliable connection over a distance of up to 20 meters. The device offers a broadband transmission speed of 16 Mbps. What does this mean in practice? It only takes a few seconds to transfer data and files. It also provides excellent video and audio synchronization. At the same time, it is characterized by high resistance to interference - so you don't have to worry about delays and interruptions in transmission.

Hi-Fi sound

HD transmission allows you to enjoy clear sound - the reproduced sounds are natural and full of details. Whether you are listening to music, watching movies or using other multimedia, with the Baseus adapter you can enjoy excellent sound quality!

Connect up to 5 devices

The Baseus adapter is widely compatible and allows you to connect up to 5 devices at the same time, such as wireless headphones, speaker, keyboard, mouse, phone, tablet or game controller. Thanks to the Plug and Play feature, you don't need to install additional drivers - the adapter works instantly when connected to Windows 8.1, 10 and 11 devices. Enjoy convenience and flexibility!
