OPIS IZDELKA

Baseus Metal Gleam Series 9-in-1 Hub

Looking for a reliable tool that will allow you to work more efficiently? The Baseus Metal Gleam Series 9-in-1 Hub is the perfect answer to your needs! With as many as 9 available ports, the ability to quickly charge your devices, support for 4K HD resolution and lightning-fast data transfer speeds of up to 5 Gbps - check out what else you get! At the same time, the product is extremely durable, and thanks to its compact size you can always carry it with you.

Enhance the capabilities of your laptop

Use just one USB-C input of your laptop to gain the ability to connect several different devices to it. The hub by Baseus is equipped with 9 ports such as RJ45, USB-C PD, 2 HDMI, 3 USB and slots for SD and TF memory cards. Now you can easily increase the functionality of your computer and make your work easier. No more problems with too few ports!

Fast charging of your devices

Conveniently charge your devices while using them at the same time. This is an excellent time saver! The Baseus Metal Gleam Series Hub supports PD 100 W fast charging (on the USB-C port), so you can restore power to your laptop, smartphone or tablet in no time. The product also ensures safe use - it is protected against short circuit and overcurrent. In addition, the advanced chip guarantees efficient operation of the hub, even when you connect more devices to it.

High image resolution

The Baseus Metal Gleam Series also offers excellent image quality. The HDMI ports support 4K resolution, allowing you to enjoy rich details and vivid, natural colors. With the hub, you can also connect up to 2 additional monitors to your laptop and use display modes such as Mirror and Expansion. This will help you increase your efficiency at work, show other meeting participants a presentation or watch a movie stored on your computer on a larger screen.

Transfer files in no time

The hub also allows you to transfer files quickly. USB 3.0 ports allow you to transfer data at speeds of up to 5 Gbps (500 MB/s). The product also allows you to connect SD and TF memory cards. This allows you to easily save photos or videos taken with your camera, camcorder, smartphone or drone to your laptop. The data transfer speed between the card and the computer is up to 104 MB/s. You no longer have to wait indefinitely for your files to be transferred!

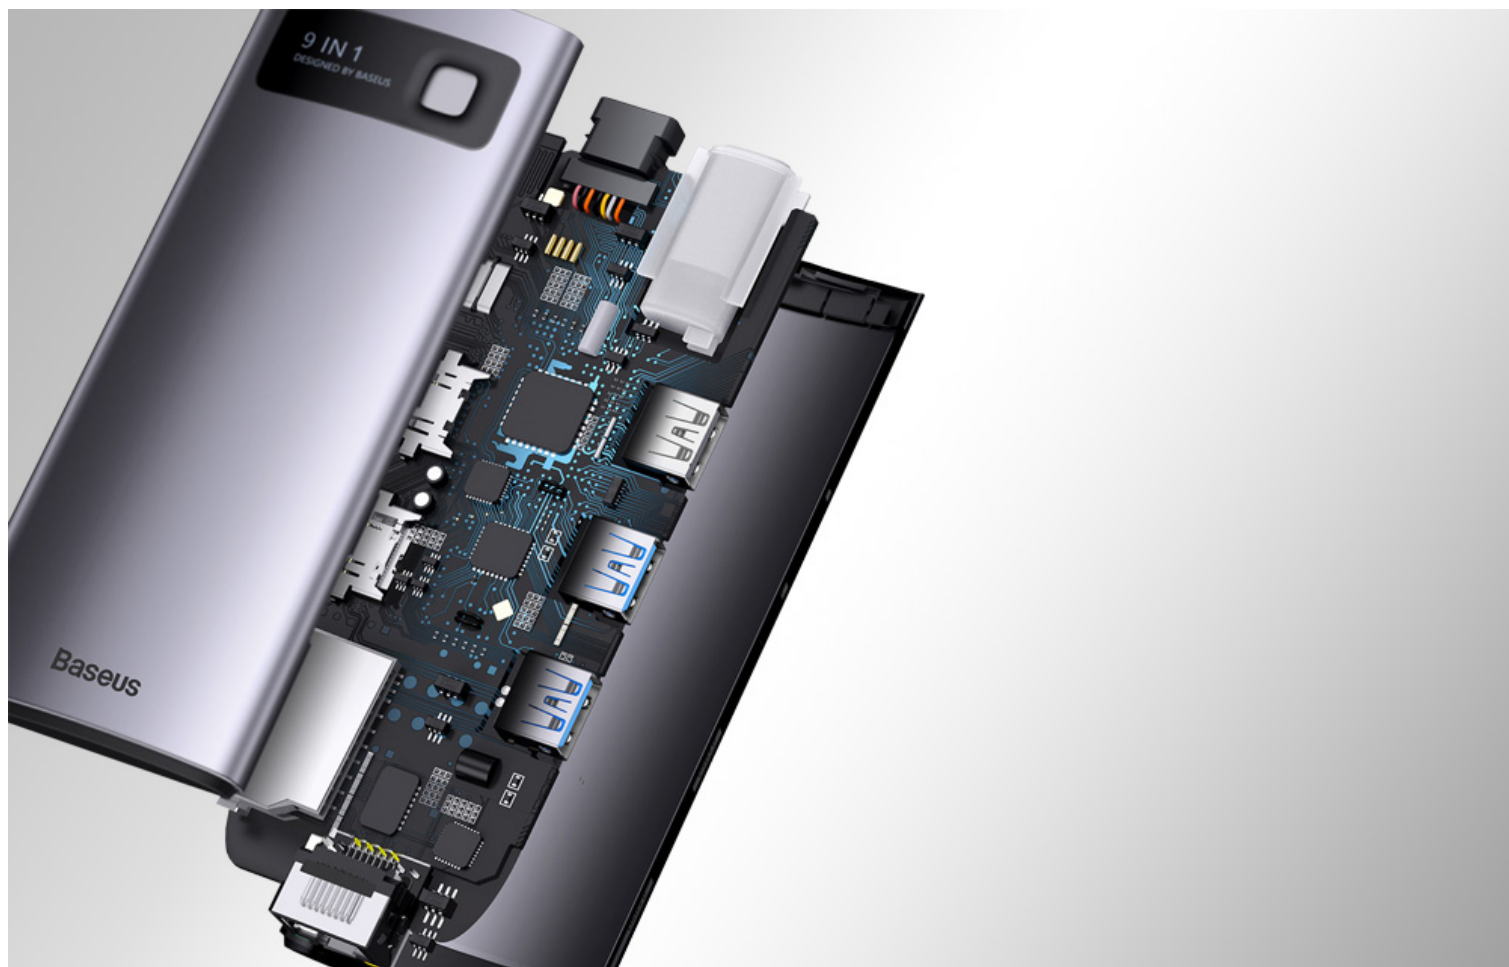

Wide compatibility

Don't be afraid of compatibility problems with the hub. It works with many versions of Windows, Mac OS or Linux. It also supports tablets and smartphones from various manufacturers - from Apple to Samsung to Huawei. No matter what devices you use on a daily basis - the Baseus brand hub will most likely work fantastically with them. What's more, thanks to the Plug&Play system, you can easily connect it - you don't need any additional drivers.

Perfectly thought-out design

The Baseus Metal Gleam Series Hub is small and portable. You can always have it at hand and use it whenever you need it. The product is also characterized by high durability. Made of aluminum alloy - it is resistant to wear, color fading, damage and heat. Pleasant to the touch texture and elegant modern design are its additional advantages. In addition, a blue, luminous indicator in real time indicates the status of the device.

Many applications

This practical device will find many uses at home, at work and while traveling. If your smartphone supports OTG, using the hub you can connect a portable drive to it and conveniently copy the files you need. Want to make it easier to work on your tablet? Combine a mouse and keyboard with it to use it just like a laptop! Now you can comfortably write emails or edit photos.
